# Annexures

## Definitions and Calculation Methodologies

Individual scheme quarterly returns are calculated using the aggregate share class NAVs. For schemes that have multiple share classes and have not submitted aggregated NAV series, an aggregate NAV series is derived using weighted average quarterly returns of the individual share classes, weights being the opening share class AUMs.

### Asset-weighted Index

An asset-weighted index is created at the category level based on quarterly returns of constituent schemes using relevant AUMs as weights.

### Equal-weighted Index

An equal-weighted index is created at the category level based on the quarterly returns of constituent schemes by assigning equal weightage to each scheme.

## Sub-Category Definitions

For classification of schemes into various sub-categories, actual asset allocation has been considered. For schemes that are active as on March 31, 2024, portfolio composition as on March 31, 2024, has been considered. For schemes that have matured, their last available portfolio compositions have been considered.

### Category III sub-classification criteria

**Multi Asset:** Following schemes have been included under this sub-category –

Schemes that had/have exposure to commodity or currency derivatives,

**Long Short Equity Fund:** Schemes not classified as Multi Asset as per above rule and have/had any long and short positions in equity and equity related instruments (mainly through derivatives).

**Long Only – Debt Oriented Fund:** Schemes not classified as Multi Asset Fund, Long Short Equity Fund and have consistently maintained more than 75% exposure to debt securities (Long and short-term debt).

**Long Only – Equity Oriented Fund:** Schemes not classified as Multi Asset Fund, Long Short Equity Fund, Long Only – Debt Oriented Fund and have consistently maintained more than 75% exposure to equity instruments (listed and unlisted).

**Hybrid Fund:** Schemes not classified as Multi Asset Fund, Long Short-Equity Fund, Long Only - Debt Oriented Fund and Long Only - Equity Oriented Fund as per above rules and falling in one of the below two categories:

Schemes that have consistently maintained more than 25% exposure to equity and at least some exposure to debt.

Schemes that have consistently maintained more than 25% exposure to debt and at least some exposure to equity

### Note:

In addition to the above-mentioned criteria, scheme's historical portfolio allocation, investment strategy and self-classification have also been considered for subcategorization.

## Eligibility Criteria

All AIFs registered with SEBI under the SEBI (Alternative Investment Funds) Regulations, 2012, are considered for the calculation of benchmarks, provided they fulfil the following criteria:

- Completion of one year from the first close of the scheme as on the date for which the benchmarks are calculated. For e.g., the AIF benchmark calculated for the period ending Mar 31, 2024, will have schemes that had their first close on or before Mar 31, 2023
- Valid data is provided to NSE Indices Ltd. in the specified format and by the stipulated deadline.
- Schemes which have complied with SEBI Circular SEBI/HO/AFD/PoD-1/P/CIR/2024/123 dated September 19, 2024, have been considered for the calculation of benchmark.

The following are **excluded** from calculation of benchmarks:

- Any scheme that has not completed one year since its first close as on the date for which the benchmarks are calculated, i.e., Mar 31, 2024
- Angel Funds registered under Category I-AIF
- Any scheme that has not provided complete or valid data or that has not provided data in the required format.
- Schemes having vintage of 2012 or earlier.

24 schemes were excluded from the calculation of benchmark metrics as on March 31, 2024, due to the following reasons:  
 -Submission of incomplete/ inconsistent data.  
 -Manual exclusions when data was provided/revised after stipulated deadline or cases of extreme IRRs for which confirmations were not received from respective AIFs within stipulated time.
